

# Mrudula Didde

## Principal Frontend Engineer

React, Next.js, TypeScript, Design Systems, Performance, Accessibility

mruduladidde@gmail.com | mruduladidde.com | linkedin.com/in/mruduladidde | github.com/shinydidde | Rajahmundry, India

### SUMMARY

Frontend engineering leader with 11+ years of experience building scalable web applications across product, platform, and growth-focused teams. Specializes in React, Next.js, Vue, TypeScript, design systems, SEO, accessibility, and performance optimization, with a track record of leading teams, modernizing frontends, and shipping measurable UX improvements.

### HIGHLIGHTS

- 11+ years in frontend engineering
- Led teams of up to 12 engineers
- Cut feature delivery time by about 50%
- Improved first-load performance by about 35%

### CORE SKILLS

#### Frontend

React, Next.js, Vue.js, Nuxt, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS

#### Architecture

Design systems, Storybook, micro-frontends, component libraries, responsive UI, accessibility, SEO

#### Data & APIs

Node.js, Firebase, REST APIs, GraphQL, MongoDB, PostgreSQL, analytics instrumentation

#### Quality & Ops

Jest, Cypress, Lighthouse CI, Sentry, Docker, AWS, GitLab CI/CD, performance budgets

### EDUCATION

MSc, Information Systems with Computing, Dublin Business School, 2024-2025, 74% First Class Honours

BTech, Information Technology, Aditya Engineering College, 2010-2014, 70%

### EXPERIENCE

#### Isavari

Oct 2024 - Present

##### Principal Engineer

- Lead an 8-engineer cross-functional team delivering scalable React and Next.js applications and frontend strategy.
- Built a modular Storybook design system that reduced feature development time by about 50% and improved UI consistency.
- Drove TypeScript adoption, micro-frontend migration, and performance monitoring with Lighthouse CI and Sentry.

#### Localstack

Jan 2021 - Mar 2024

##### Web Developer

- Shipped SEO-friendly Vue and Nuxt frontends with accessible, responsive user experiences for cloud developer tooling.
- Integrated REST and GraphQL APIs and improved first-load performance by about 35% through bundle and rendering optimizations.
- Built an internal npm component library and strengthened Jest, Cypress, and GitLab CI/CD practices.

#### Finnovation Tech Solutions Pvt Ltd

Dec 2019 - Sep 2021

##### Technical Lead

- Led a 12-developer team across frontend, platform, and operations for large-scale product delivery.
- Owned production deployments, SEO crawlability, analytics implementation, and frontend reliability improvements.
- Delivered supporting platform integrations including Firebase authentication and Go-based APIs.

#### Finnovation Tech Solutions Pvt Ltd

May 2018 - Nov 2019

##### Senior UX Engineer

- Built and maintained major KreditBee web properties from scratch and migrated legacy experiences to React.
- Owned internal dashboards, admin tooling, SEO improvements, analytics reporting, and conversion-focused UX work.

#### Earlier Experience

Aug 2014 - May 2018

##### Software Engineer to Junior Software Engineer

- Delivered customer-facing products at Wandertrails and Witlab using Angular, React, Jade, jQuery, Bootstrap, and modern CSS.
- Built CRM and admin tooling, supported production deployments, and contributed to SEO, analytics, documentation, and mentoring.
